

# IRIDIUM 10 mm

ROPE

Ref. 2809

SELF RESCUE, TEAM RESCUE, ROPE ACCESS

The right choice for workers who require a minimalist semi-static rope that still guarantees a high strength. The small diameter is balanced with a compact sheath construction of 40 carriers made from twisted yarns.

White/Black:

**501:** 50 m

**1001:** 100 m

**2001:** 200 m

Sheath is made with **twisted yarn**, which improve abrasion, resistance and durability of the rope

For 200 m length  
**replacement labels included!**

Can be used to replace old labels  
or for individual identification
