

# ACCESS RESCUE POLE

TELESCOPIC ROD

Ref. 3514 - 3515

SELF RESCUE, TOWERS/INDUSTRY

Telescopic rod equipped with a top system that allows the worker to fix a carabiner with the gate open. Usable in daily work for the installation of a rope line from below (e.g. Goblin, Blin Kit). In emergency situations, it is the ideal tool for remotely hooking the victim to the rescue line (e.g. Rescue Kit). Compatible with the Hercules double lever carabiner and with most D, HMS and oval-shaped carabiners equipped with double or triple locking gates (e.g. Oval XL, Oval Pro, D Pro, Guide XL, Atom).

Available in two versions:  
**ref.3514: 63-310 cm**  
**ref.3515: 100-542 cm**
