

ARES MESH SHIELD

VISOR

Ref. 3492

TREE CLIMBING, ROPE ACCESS, GENERAL

Face and eye shield for protection against mechanical risks of projected objects.

Made with a fine weave metal mesh that combines a high level of protection with excellent ventilation and visibility (25% light reduction).

The design offers a wide field of vision with enough space to allow the worker to wear glasses under the shield.

The sturdy ABS frame allows for quick and safe fastening on all Ares series helmets and quick and easy transitions from work to rest positions.

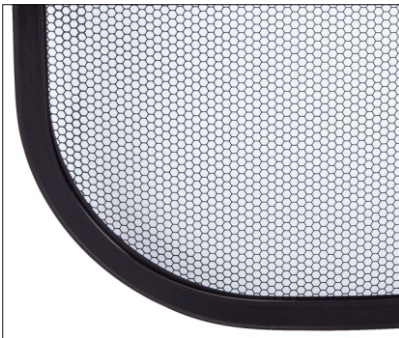

Certifications:

- EN 16321: mechanical protection against high speed particles.

ABS frame for quick fastening on all Ares series helmets

Fine weave metal mesh: excellent visibility (25% light reduction)

Ref.3495 - Spare frame for Ares Electric Shield and Ares Mesh Shield

Ref.3495 - Spare visor for Ares Mesh Shield
